DIVIDER CURTAIN

Enhance the flexibility of your sports hall, facility, schools, or event halls with our high-quality curtain dividers. Designed to efficiently partition large spaces, our durable and easy-to-operate dividers create adaptable environments for various activities, from sports training and events to meetings and recreational use.

PRODUCT VARIATION

ELECTRIC DIVIDER CURTAIN

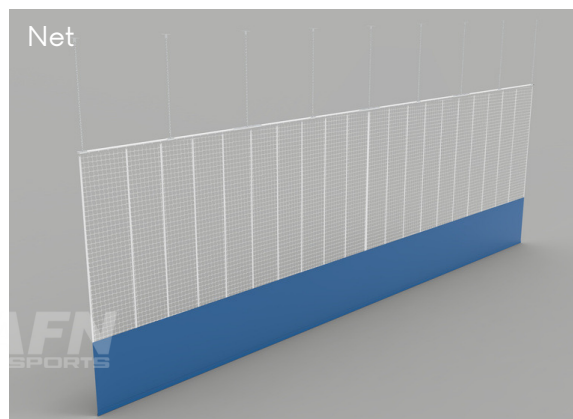

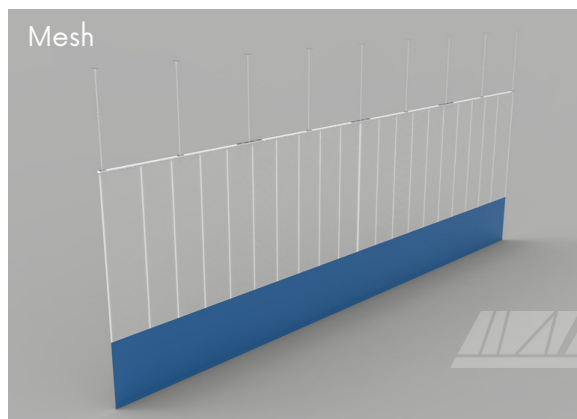

This electrical curtain divider combines durability with functionality, featuring a PVC Canvas lower section and an upper section available in either mesh or net for added ventilation and visibility. Powered by a heavy-duty motor mounted at the top center, the system operates smoothly through a reliable tape mechanism, while a built-in counterweight at the bottom of the canvas ensures the curtain remains taut and stable when in place.

PRODUCT VARIATION

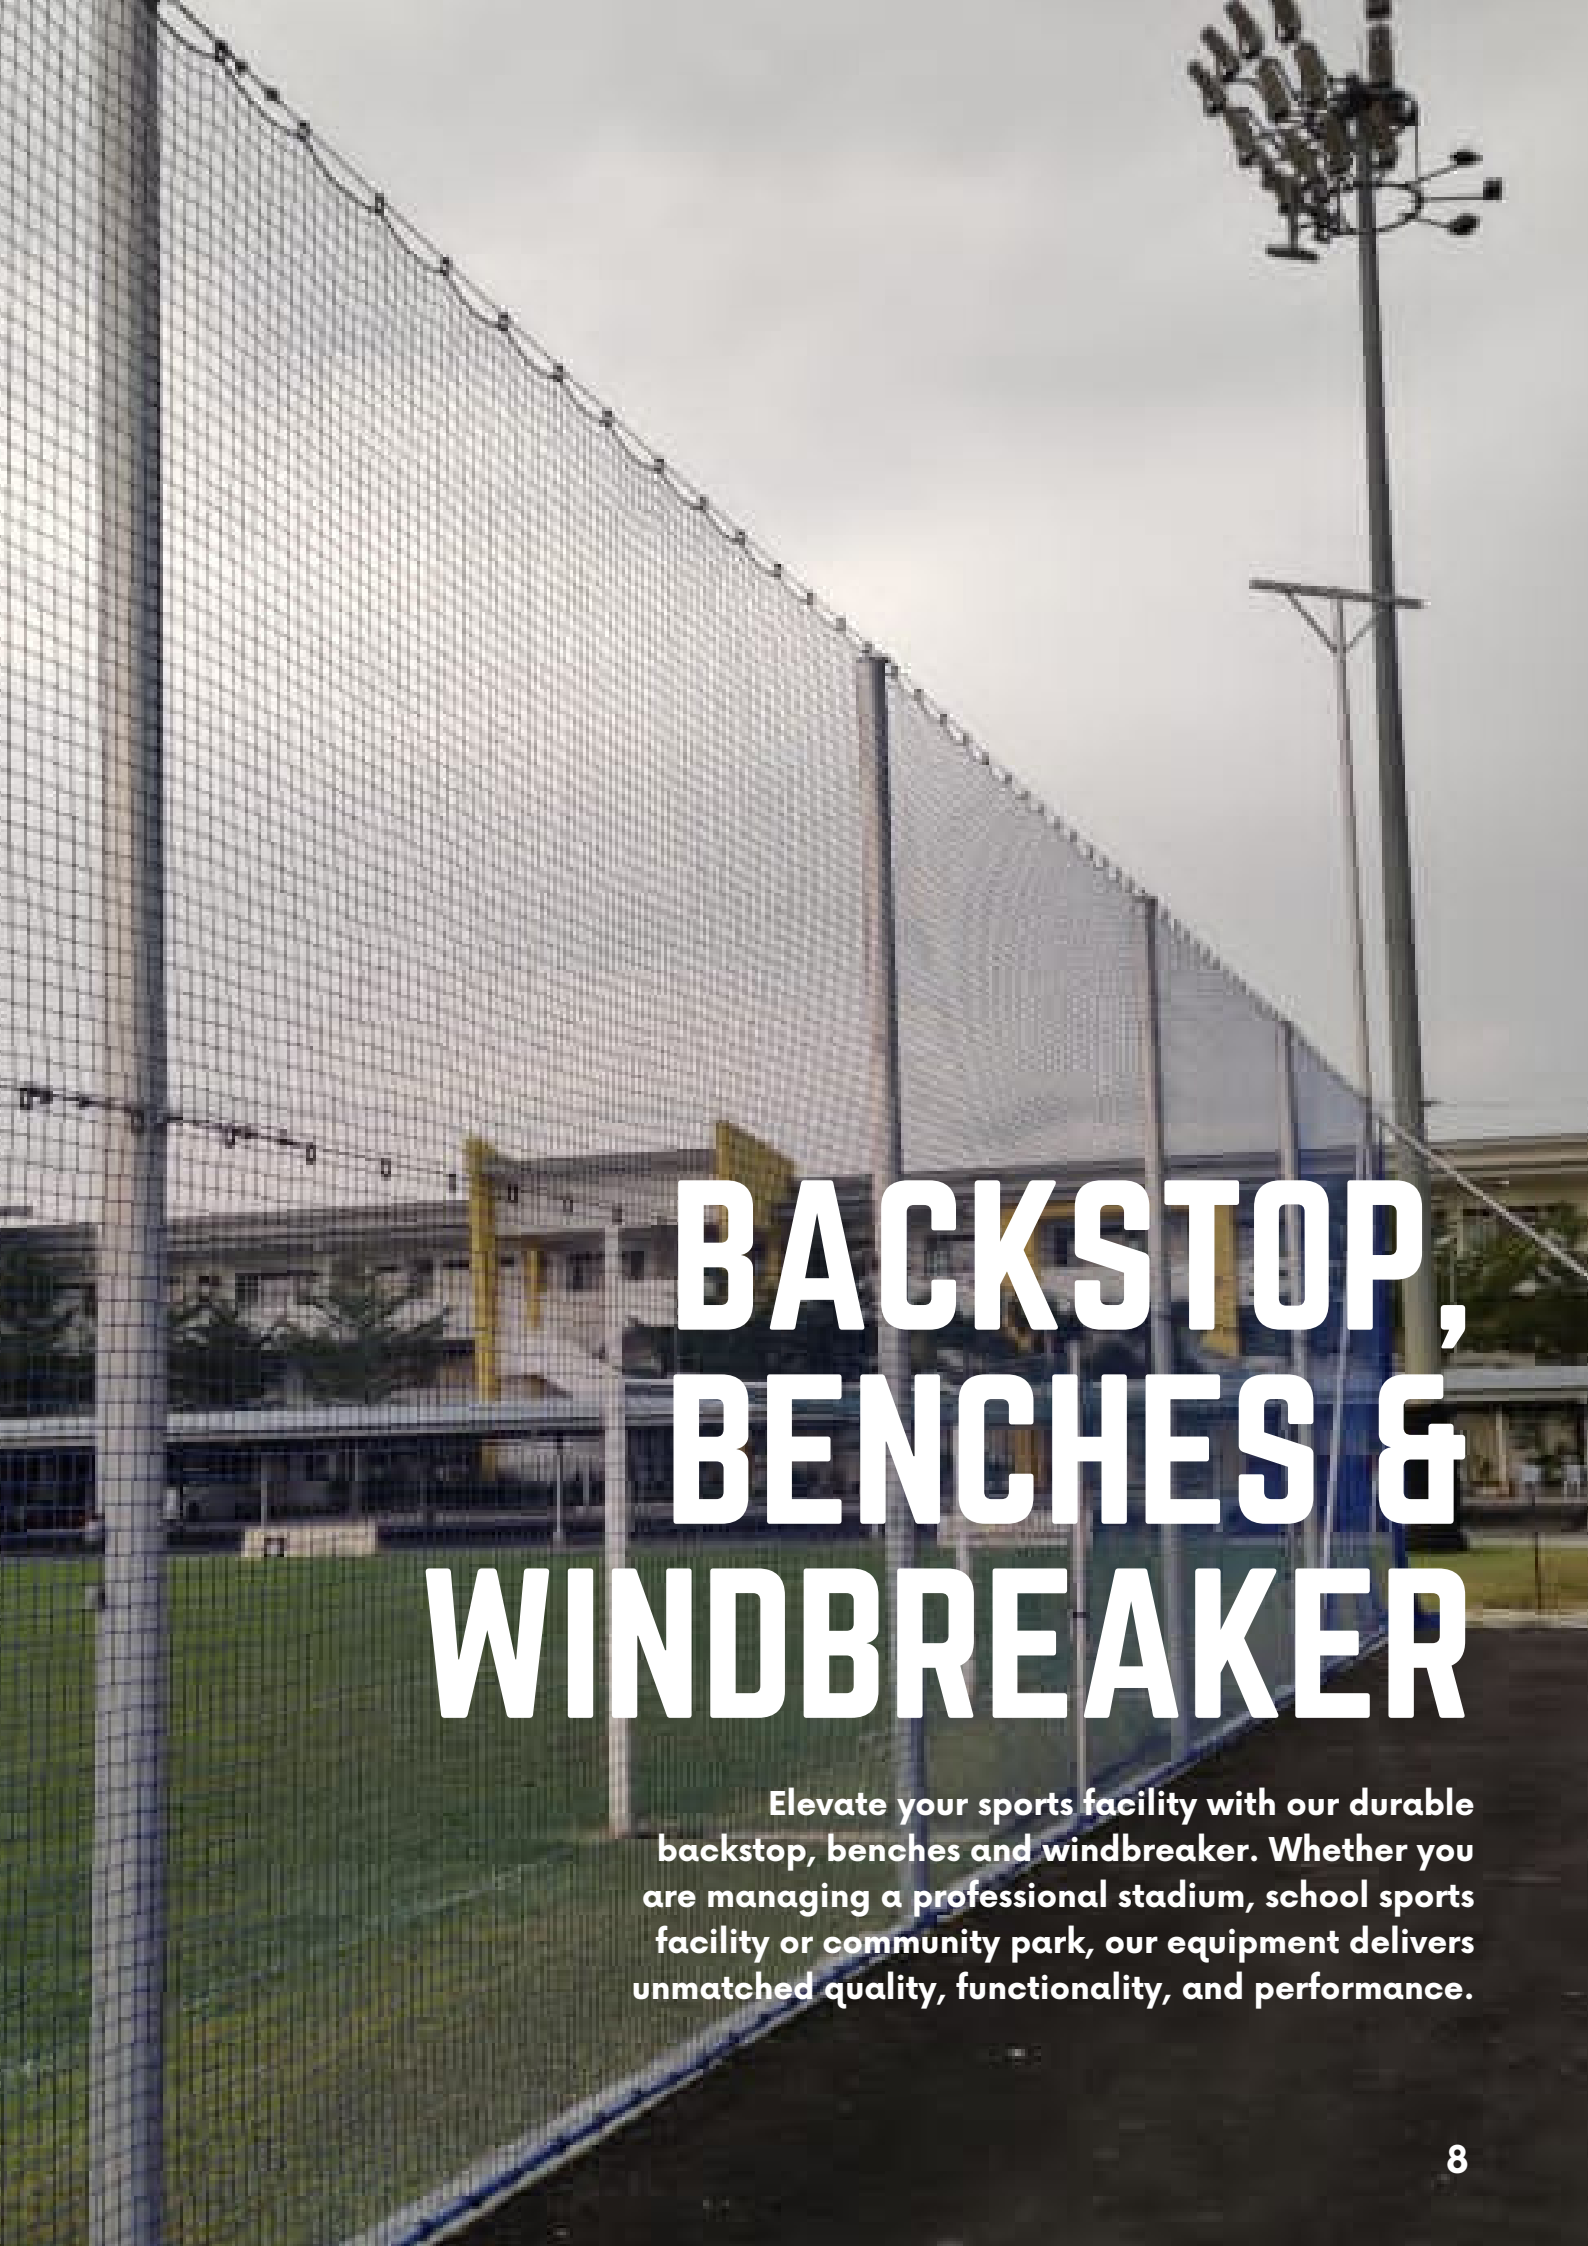

WALK DRAW DIVIDER CURTAIN

The Walk-Draw (Manual) Curtain Divider is designed for smooth and reliable operation, with the curtain manually drawn along a sturdy aluminium guide rail. Nylon rollers, spaced at 30 cm intervals, ensure quiet, low-friction movement and long-lasting durability. Featuring a PVC Canvas lower section and an upper section available in either mesh or net for added ventilation and visibility. Its simple manual system requires no electricity, making it cost-efficient and low-maintenance, while the space-saving design makes it ideal for multipurpose sports halls.

WALL PADDINGS & LANDING MAT

Our wall padding and landing mat solutions provide the perfect balance of protection, functionality, and style, making them a must-have for any high-traffic sports or recreational environment. Choose from a variety of sizes and colours to match your facility and sports equipment needs.

PRODUCT VARIATION

WALL PADDING

Our wall padding is made from high-quality PE foam, available in 4cm or 6cm thickness options to suit different safety needs. The panels can be covered with a durable PVC canvas, with an optional fire-retardant finish for added protection. Made for indoor use, each panel is equipped with fastening straps at the top and bottom, which are fixed to the wall using sturdy aluminium flat bars. Additional Velcro fastenings on the back further hold the padding firmly in place, ensuring stability during use.

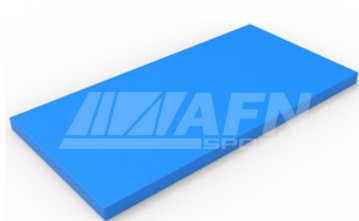

PRODUCT PROFILE

Standard Size : 2.0m x 1.0m

PVC Canvas Colour : ● ● ● ●

Our padding can be tailored made according to your specific requirements. Customization options are available—please contact our sales representative for details.

LANDING MAT

Our landing mat is made from polyether foam, available in 25cm, 30cm, and 40cm thicknesses, ensuring reliable impact absorption and athlete safety. It is covered with a durable, waterproof PVC canvas that withstands intensive use in both indoor and outdoor environments. The zip-fastened cover allows for easy removal and maintenance, ensuring long-lasting performance and reliable protection.

PRODUCT PROFILE

Sizes : 2.0m x 1.5m | 3.0m x 2.0m | 4.0m x 3.0m

PVC Canvas Colour : ● ● ● ●

Our landing mat can be tailored made according to your specific requirements. Customization options are available—please contact our sales representative for details.
